Notes

This register shows information on the certificates issued by CertiSource to Forest Management Units (FMU) and mills.

For up-to-date registers please visit www.certisource.co.uk or contact Paul Wilson in Indonesia, +62 881 4638608, paul@certisource.co.uk

1. FMU Certificate No.

CertiSource requires that FMU's are able to demonstrate compliance to the relevant country specific standard.

On successful completion of the assessment, a FMU certificate is issued with a unique 4-digit reference number beginning with CS DD.

2. FMU Area (ha)

Hectare is a unit of area defined as 10,000 square meters.

3. Related Mills

Potentially a FMU could have a number of mills sourcing CertiSource 'verified legal timber' from their concessions. Each mill is listed next to the relevant FMU.

4. Sawmill CoC Certificate No.

Sawmills undergo a comprehensive Chain-of-Custody (CoC) audit every six months. On successful completion of the audit a CoC certificate is issued with a unique reference number.
